

**PRESS RELEASE**

## **Gianmichele Campanella elected to the IBIA Board**

## Gianmichele Campanella elected to the IBIA Board

February 9, 2026

Fratelli Cosulich is proud to announce that Gianmichele Campanella has been **elected as a Board Member of the International Bunker Industry Association (IBIA)**.

The election was announced during the **IBIA Annual Dinner 2026**, a flagship event in the global bunker and marine fuels calendar held in London on 9 February, bringing together senior industry representatives, stakeholders and members of the international bunkering community and serves as a key occasion to close the Association's activities.

This election represents a significant recognition for both Gianmichele Campanella and the Group, highlighting Fratelli Cosulich's active and long-standing engagement within the global marine fuels and marine energy sector. His appointment to the IBIA Board reflects the trust placed in his professional experience, industry knowledge and ongoing contribution to the international bunkering community.

Through this role, Gianmichele Campanella will contribute to the strategic direction of IBIA at a time of profound transformation for the maritime industry, as it navigates regulatory change, decarbonisation pathways and the development of alternative marine fuels.

His election further reinforces Fratelli Cosulich's commitment to constructive industry dialogue and to supporting the evolution of safe, efficient and sustainable marine energy solutions on a global scale.

## ABOUT IBIA

The International Bunker Industry Association (IBIA) is the global trade association representing the interests of the marine fuels sector.

IBIA brings together a wide range of stakeholders across the bunkering value chain and plays a key role in promoting best practices, facilitating dialogue with regulators and international bodies, and supporting the industry through regulatory, technical and market developments.
